Bridges Head Start
Classroom Safety Check

Instructions for completion: A staff member must conduct a daily safety check of the classroom. The check should be completed before the children arrive. After completing the check, the staff member should write the date and initial below. Any concerns or findings should also be noted and reported to the ECEC. This form should be posted near the exit door and a copy should be turned in with EOM.

Center: _____ Month: _____

Date	Staff Signature	Findings/Comments

The following things should be considered during each classroom safety check:

- Safety caps on electrical sockets
- Loose electrical cords
- Heavy objects or furniture children can pull down
- Furniture with missing handles, parts, and/or protrusions
- Medicines and cleaning materials locked away
- Mats or rugs that slide
- Play areas in front of doors
- Mini blind cords out of children's reach
- Any other concerns
